Profile:

MCA graduate with hands-on experience in Java, Spring Boot, PHP, MySQL, JavaScript, HTML, CSS, and full-stack web development. Strong knowledge of Data Structures and Algorithms, DBMS, Object-Oriented Programming, Operating Systems, SQL, and REST APIs. Experienced in developing and deploying real-world applications, database management, payment gateway integration, email automation, REST API development, and admin dashboards. Seeking an entry-level Software Developer opportunity to apply technical skills and contribute to real-world software projects..

Education:

MCA (Master of Computer Applications) Yashoda Technical Campus, Satara 79.25%	(2024–2026)
BCA (Bachelor of Computer Applications) College of Computer Application for Women, Satara CGPA: 6.39	(2021–2024)
Class XII (HSC) Shri Venna Junior College, Medha 72.80%	(2021)
Class X (SSC) Shri Bhairavnath Vidya Mandir, Kelghar 63.89%	(2019)

Project:

1.Rotarex-2026 | Full-Stack Developer

- Developed and deployed a web-based registration system for a state-level competition using **PHP, MySQL, HTML, CSS, JavaScript, and Bootstrap**.
- Integrated **Razorpay Payment Gateway** for secure online payments.
- Implemented **PHPMailer** to automate registration confirmation and notification emails.
- Designed and developed a custom **Admin Dashboard** for participant, event, and payment management.
- Optimized the **MySQL database** for efficient data storage and faster query execution.

2.Arthsangh | Backend Developer

- Developed a financial management system for **Self-Help Groups (Bachat Gat)** using **Java Spring Boot**.
- Implemented backend business logic for managing savings, loans, and financial transactions.
- Designed and maintained relational databases using **MySQL**.
- Developed **REST APIs** for seamless communication between frontend and backend

3. Personal Expense Manager – Python Desktop Application

Developed a professional personal expense management application using Python, Tkinter and SQLite. Implemented expense CRUD operations, dashboard analytics, category-based filtering, monthly budget tracking, search functionality and CSV report export. Designed a user-friendly GUI with data validation and persistent database storage.

Technologies:Python | Tkinter | SQLite | SQL | CSV | GUI Development

4.Shantubag Agro Tourism Portal| Web Developer

- Developed a web-based agro-tourism booking and management portal using **PHP and MySQL**.
 - Implemented user registration, login, room/package booking, and customer management features.
 - Developed an **Admin Panel** to manage bookings, users, payments, and reports.
 - Designed responsive user interfaces using **HTML, CSS, JavaScript, and Bootstrap**..
-

Technical Skills:

Programming Languages: Java,Python , C++, PHP, JavaScript, SQL.

Core Computer Science:Data Structures & Algorithms,DBMS,Operating System Concepts, Object-Oriented Programming (OOP), SDLC

Frameworks & Technologies: Spring Boot, JDBC, Bootstrap, REST APIs, MVC Architecture

Databases: MySQL

Tools: Git, GitHub, VS Code, Eclipse, XAMPP, Razorpay API, PHPMailer

Web Technologies: HTML5, CSS3, JavaScript, Responsive Web Design

Volunteer experience:

NSS Volunteer Participated in community service activities, social awareness programs, and team-based initiatives that enhanced leadership and teamwork skills.

Certifications & Achievements Certifications:

KLiC Certificate Course in C++ , KLiC Certificate Course in Web Designing , Advanced Excel Certification

Achievements:

- First Prize Winner – Rotarex State-Level Project Competition (2026)
- Successfully Developed and Deployed Rotarex Event Registration Platform
- Certificate of Appreciation for Development and Deployment of Rotarex Platform
- Launched Official Website for Rotary Club of Satara – Rotarex Event 2026
